

Employment Library

With the US Employment Library, you gain access to a broad array of critical labour and employment materials, including federal cases, annotated statutes, rules, administrative materials, and timely reports of current developments that are not easily found together in one easy-to-use source

The Library also includes some key search benefits that make it a unique source of reference...

Specific references

You will find specific references that an opinion-only search might miss, because every point of law has an assigned West Key Number based on case concepts, not just case language.

Labour and employment materials

Also available is a selection of labour and employment materials for one or more selected states. These include cases, annotated statutes, rules, administrative materials, current developments, and materials on the Family Medical Leave Act, Americans with Disabilities Act, Administration of 401(k) and SIMPLE retirement plans, and OSHA Title 29, US C.

West case synopsis and headnotes...

These summarise the facts, issues, procedural history, holdings and disposition of a decision – information that might otherwise be scattered throughout the opinion.

The synopsis and headnotes also contain terms that may not have been used by the authoring judge, including terms of art and words that describe legally significant relationships among parties (e.g., landlord and tenant, husband and wife).

As a result, a Westlaw search can retrieve relevant cases that an opinion-only search might miss – an invaluable benefit that could save you time, and help you work more effectively.
