

StateNet

Track and search the full text of any state regulatory changes with modifications indicated, and be updated on a daily basis

The StateNet Regulatory Reporting Service Library consists of tracking summaries along with full text of proposed, pending, and adopted regulations for all fifty states as provided by the Information for Public Affairs.

Also included are additional state register publications reflecting the print state registers in eight states.

The text of a regulation contains the following identifying information:

- Name of agency
- Title of regulation
- Date proposed or adopted
- Subject matter
- Agency contact
- Citation
- Status

Together with all the information above, a subscription to the Westlaw StateNet Library offers you the widest range of information you could ever need on any state regulatory changes and issues.
