

# TRADEMARKSCAN Library

**For a valuable source of quick reference on trademarks, look no further than The TRADEMARKSCAN databases, produced by Thomson & Thomson**

Here you'll find a raft of information on trademarks and service marks registered with US, Canadian and European trademark authorities.

As well as all applications for registration, TRADESMARKSCAN also includes Pending applications for both actual-use and proposed-use applications.

This database has been designed primarily as a fast screening tool for checking the availability of new product or service names. A search on the TRADEMARKSCAN – All database is not intended to be the sole basis for clearing a new name or for filing an application – because if a trademark is not found in the database, it does not necessarily mean that the trademark is available for use. However, registration does confer the exclusive right to use of the trademark and offers a greater degree of protection from infringement.

Each document on the database contains:

- the trademark, international class(es), current status, the owner's name and address, plus:
- a description of the wares (goods) or services, application (serial) and/or registration number.

representative and/or agent, date information, action history and other pertinent information.

**TRADEMARKSCAN databases include two Multibases:**

- Multibase (All)
- Multibase for all states, PR & Am. Samoa
- 50 States and Puerto Rico

Plus, databases covering:

- American Samoa, Austria
- Benelux-Merkenbureau
- Canada
- Denmark
- European Community, Europe
- (U.S) Federal, Finland, France
- Germany
- Italy, International Register
- Liechtenstein
- Monaco
- North America, Norway
- Spain, Sweden, Switzerland

All in all, using TRADESMARKSCAN is the ideal solution when you need a fast, easy to navigate reference on trademarks and service marks from over 20 areas of the Western world.
