

US All Primary Law Library

This comprehensive library provides a unique reference to American Primary law, and includes annotated and complete primary legal materials, fully integrated and up-to-date

One of the key benefits of this library is that it fully integrates federal and 50-state primary law into one location. This includes state appellate and trial court cases; annotated state statutes; state administrative, executive, and municipal codes and materials; plus federal Case law, including:

- 50 State Statutes (annotated) – along with documents passed by the state legislative bodies
- State Administrative, Executive and Municipal materials – includes State Attorney General opinions, administrative codes, administrative registers, insurance bulletins, as well as state securities, environmental and workers' comp administrative decisions
- Federal Case Law – includes US Supreme Court, US Courts of Appeals, US District Courts and specialised case law
- United States Code Annotated – includes Titles 1-50, the Constitution, federal court rules, and notes of decisions for current coverage of cases construing and applying federal statutory law
- CFR and Federal Register – along with other federal administrative and executive materials

Also included are West case synopses and headnotes, summarising the facts, issues, procedural history, holdings and disposition of a decision – information that might otherwise be scattered throughout the opinion. These synopses and headnotes contain terms that may not have been used by the authoring judge, including terms of art and words that describe legally significant relationships among parties (eg, landlord and tenant, husband and wife). As a result, a Westlaw search can retrieve relevant cases that an opinion-only search might miss.
